RaceMyDesk

THE REAL PROBLEM

The answer already exists. You just can't reach it.

It's already in your company, lost somewhere among thousands of emails, files and documents.

A thread from last March

Buried under thousands of newer emails nobody will scroll back to.

A contract owned by Legal

The terms are agreed and signed, but the file lives on another desk.

A number only Finance has

The figure exists in a report you don't have access to.

A colleague on holiday

The one person who knew the answer is away for two weeks.

RaceMyDesk

HOW RACEMYDESK SOLVES IT

We connect everything. You get the answer in seconds.

1 INPUT

Everything it reads

- Emails
- Documents
- Shared folders
- Team & people
- Web & data
- Reports

2 RACEMYDESK

Your company's intelligence center

- Reads everything
- Learns your tone
- Any language
- Role-based access

3 RESULTS

What your team can do

- Answer emails in seconds
- Find information instantly
- Summarize threads & docs
- Generate reports & context

RaceMyDesk

HOW IT WORKS

Five engines. One platform. One private AI.

Each one handles a different layer of your company's work.

01

Email

Drafts your replies

02

Q&A

Answers any question

03

Reports

Builds them in seconds

04

Workflow

Runs processes itself

05

Audit

Checks every email

ONE PRIVATE AI

Runs on your own servers. Your data never leaves the building.

Inside the tools you already use

EMAIL INTELLIGENCE

An email comes in. The reply is already written.

It reads the message, finds the answer across your company, and drafts it in your tone.

Can you confirm the group rate for Meridian and send availability for 12-15 March?

DRAFT READY · IN YOUR TONE

"Hi Alice, the March group rate was **EUR 142/night**, half board. Availability confirmed; proposal attached."

Group_rates_2026.pdf

12 min → 30 sec

FOR EVERY EMAIL

Finds the context

Pulls from past threads, docs & other departments.

Writes in your voice

Learns your tone; sounds like you, not a bot.

You stay in control

Nothing is sent until you approve it.

Q&A

Ask your whole company anything.

Answered from your own data, with the source, respecting each person's permissions.

What are the payment terms on the Meridian account?

Meridian works on **net 45-day** terms, with a **2% early-payment discount** if paid within 15 days.

Agreed in the contract renewal, March 2026.

Source: Meridian_Contract_2026.pdf

AND MUCH MORE YOU CAN ASK

Sales support

"What would your best salesperson do here?"

Files & summaries

"What does this 200-page contract actually say?"

Custom reports

"What's the full picture for this client?"

No more waiting

RaceMyDesk

Q&A IN PRACTICE

One question per role. An instant answer.

Real situations RaceMyDesk solves every day.

EMPLOYEE	**“Where's the proposal we sent Meridian in March?”** Found in seconds, in any inbox or folder.
CEO	**“Give me everything on the India opportunity: clients, finance, competitors.”** Real project data, not opinions.
DIRECTOR	**“Carlos is on sick leave. What was he working on? Anything urgent?”** Full handover in one click, nothing lost.
HR	**“Ana is leaving. Any reviews or documents still unsigned?”** Her knowledge stays in the system for whoever replaces her.
COMPLIANCE	**“Has anyone given a discount above 15% without approval?”** Detected automatically; every exception visible in real time.
STRATEGY	**“We're entering the Nordic market. What do Sales, Finance and R&D already know?”** One answer that unites what each team knows separately.

REPORTS

Ask for the full picture. Get it in seconds.

Client summaries, project status, financial overviews; pulled from everything your company knows.

Client report · Meridian Group — Ready in 4 sec

LAST CONTACT	12 Feb · price follow-up
OPEN ITEMS	3 approvals pending
CONTRACT VALUE	EUR 240,000 / year
RISK	Delivery SLA under review

Sources: 14 emails · 3 contracts · CRM records

an afternoon → seconds

REPORTS IT BUILDS FOR YOU

Client & account summaries
Everything known about a client, on one page.

Project & status updates
Where things stand, pulled together automatically.

Financial overviews
The numbers, in context, without the chasing.

WORKFLOW

One request. Many steps. Zero chasing.

Set up a process once; RaceMyDesk runs the whole chain itself. You only approve.

Prepare the status report for the Meridian contract

RACEMYDESK RUNS IT

- ✓ Gathered input from Finance, Ops & Legal
- ✓ Read the replies, compiled the summary
- ✓ Drafted the client update
- 4 **Ready for your approval**

6.5 days → 40 sec

SET UP ANY PROCESS ONCE

Client onboarding
Welcome email, docs & setup, in order.

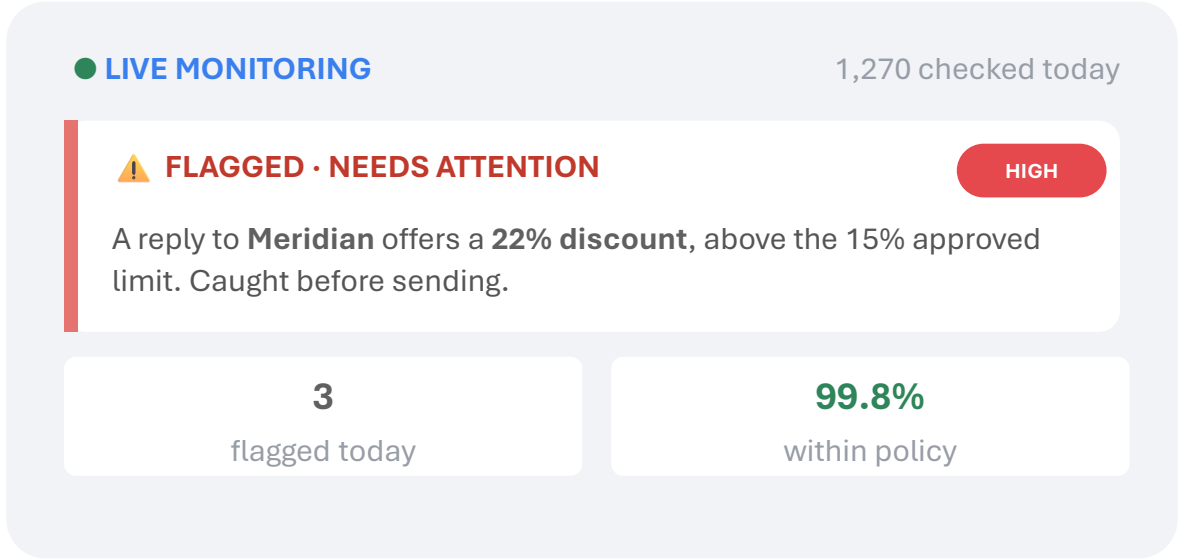
Quote & approval
Prepared, routed for sign-off, sent.

Weekly reporting
Pulled together and circulated, on time.

AUDIT

Every email checked. Every exception flagged.

RaceMyDesk reviews every message against your rules, in real time, and flags what needs attention.



WHAT ELSE IT WATCHES FOR

Commitments & promises
Deadlines or terms agreed in writing.

Pricing & discounts
Anything offered outside approved limits.

Unanswered requests
Clients still waiting on a reply.

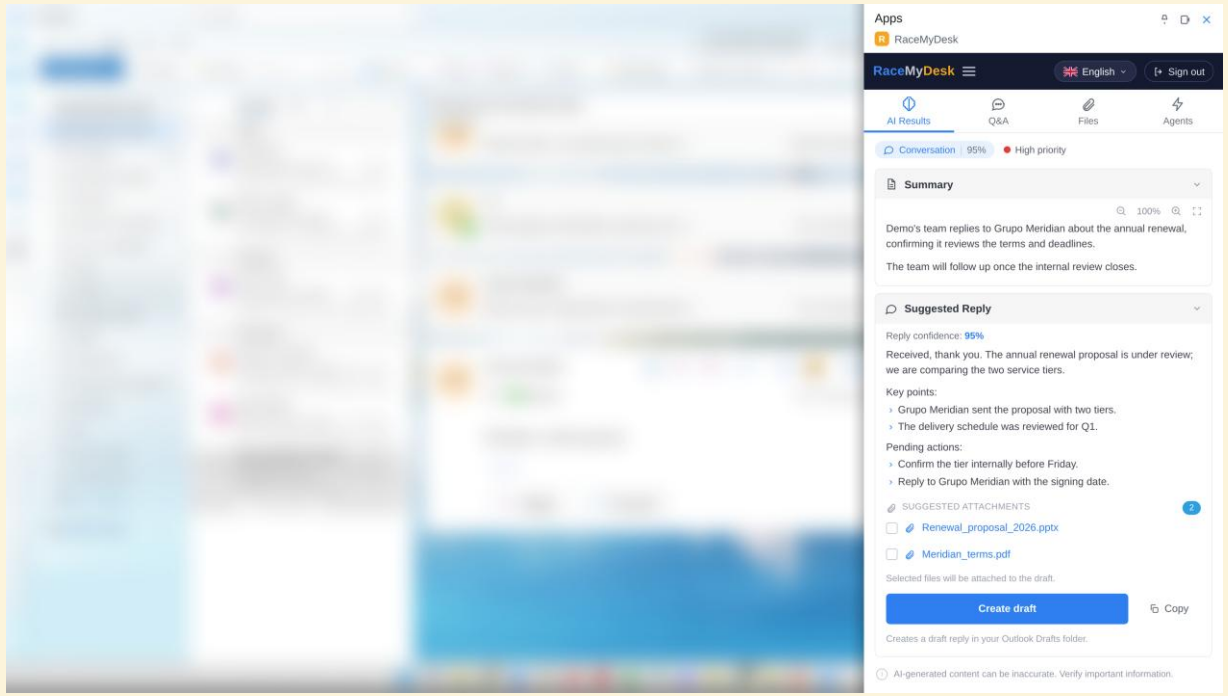
Nothing slips through

RaceMyDesk

INSIDE YOUR INBOX

It all happens inside Outlook.

The add-in lives in your email side panel. Open the inbox and the AI is already working on the thread in front of you.



Your usual accounts

Works on the mailboxes your team already uses. No migrations, no new accounts.

Email, untouched

The inbox stays the same. Nobody has to learn a new interface.

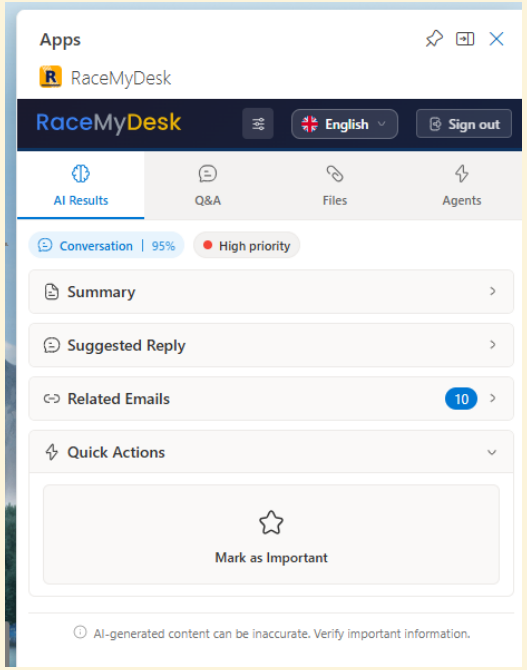
AI, alongside

The panel reads the open thread and leaves the summary and reply ready to review.

THE SIDE PANEL

The whole platform, in one panel.

Switch tabs, not programs. The panel works on the open email and across the whole company.



AI Results

Summary	The whole thread condensed into one or two paragraphs.
Suggested reply	The outgoing email drafted, with its confidence level and the files to attach.
Related emails	Previous threads with that sender, one click away.
Quick actions	Mark as important and other actions on the email.

Questions

Q&A across the whole platform, not just email.

Files

Upload any document and choose the analysis.

Agents

Multi-step sequences that run on their own.

RaceMyDesk

PRIVATE BY DESIGN

Your team will use AI. The only question is whose.

When the right tool isn't there, people paste company data into public chatbots. Once it's out, it lives in the cloud, within anyone's reach.

PUBLIC AI

Fast, but out of your control

- Your data can train someone else's model
- In the cloud, nothing stays private
- Shadow AI: staff paste into public tools
- Nothing is logged or auditable

VS

RACEMYDESK · PRIVATE AI

Same speed, fully yours

- Runs on your own servers
- Your data never leaves the building
- You decide who can access what
- Every action logged and auditable

The question was never whether your team uses AI. It's whose AI they use.

RaceMyDesk

BACKED AND CERTIFIED

Serious AI, on serious foundations.

NVIDIA Inception Program

NVIDIA, the NVIDIA logo, and NVIDIA Inception are trademarks and/or registered trademarks of NVIDIA Corporation in the U.S. and other countries.

Member of the NVIDIA Inception program

- Built for private, enterprise-grade AI
- Access to NVIDIA's accelerated computing and expertise

MICROSOFT MARKETPLACE

Certified by Microsoft, published and live

- Passed Microsoft's Marketplace security review
- Installable from the official catalog, under your admin

RaceMyDesk

The answer was always in your company.

Now your team can reach it.

Give them their month back, and spend it growing.

Reaching new clients | Sending proposals | Closing deals | Serving customers | Planning ahead

Private AI, on your servers, inside the tools you already use.
